

## **MISSION STATEMENT**

The Wendell Historical Society's mission is to renovate the former Wendell Depot Store and Post Office into a permanent home for the preservation of our town's history. This repository will be a place where we will collect, catalog, store and display artifacts, documents, books, genealogy and ephemera related to the history of Wendell, Massachusetts. The new home will be a location where research and learning take place and where we will celebrate the past, present and future through museum shows, events, readings and concerts. The establishment of a historical society with a permanent home will be a first, meeting a long-standing need for our rural community.
